**AWARDS**

During the school year 1982/1983 I enrolled for the post-graduation studies in the Faculty of Construction at University “Kiril and Metod” in Skopje. I passed the exams provided in the curriculum with excellent success and graduated in 1985. I defended the Master thesis in 1989.

Participated in many scientific symposiums organized throughout Yugoslavia, in Cavtat, Dubrovnik, Split, Ljubljana, Belgrade, Sarajevo, Novi Sad, Skopje, between 1976 and 1990, as well as in many trainings organized in Kosovo between 2000 and 2010.

In 1975 I was employed with Construction Company “Kosova” in Vushtrri and worked until 1990 when Serbian violent forces – fascist regime of Millosheviq were introduced. Initially, as a beginner engineer I worked at the construction site of the following construction buildings:

Students dormitory no.5 in Prishtina, Sports hall “Minatori” in Mitrovica, apartment block “Bregu i Diellit” in Prishtina, apartment block “London” in Mitrovica consisting of 10 buildings with a gross area of 40000,0 square meters.

Cultural center “Rexhep Mitrovica” in Mitrovica, mosaic tile factory in Zvecan, football stadium “Trepca” with a capacity for 40000 spectators and many other buildings.

In 1979 I was appointed a manager of the construction yard in Mitrovica where over 800 employees were employed.

In 1982 I was appointed a Director of Construction Operations in “Kosova” company with over 1500 employees.

In 1986 I was appointed a General Director of Construction Company “Kosova” in Vushtrri and worked until 1990 when discriminating violent measures of Serbia were introduced, and not concurring with these discriminating measures I resigned and terminated the employment.

## **TEACHING EXPERIENCE**

- Main project for steel construction for textile industry “Polet” in Vushtrri – year 1979 (1500 square meters)
- Main project for the construction of the roof of the factory for the production of electric poles made of reinforced concrete in Vollujak, Klina – 1980 (1250 square meters)
- Project for the construction of the steel roof of the textile factory “Sloga” in Mitrovica - 1982 (1600 square meters)
- Project for the repair of roof construction with an area  $l=60,0$  m in Sports Center “Borodhe Ramiz” in Prishtina, which was damaged from fire in 2003. (8500 square meters)
- Main project and the execution of roof construction for the sport center “Fatime Xhaka” in Mitrovica – 2004 (450 square meters)
- Supervision of works in the construction of sports center in Dardana – 2006
- Supervision of works at sports center in Gllogovc, which is being constructed.

Besides my duties in the construction operation I have also been actively engaged in the teaching process at the Faculty of Construction and Architecture in Prishtina since 1979. From 1979 until 1989 I was engaged in the teaching process as part -time assistant for subject Metallic structures for constructors and architects. In school year 1990-91 I was appointed a regular lecturer for the subject Metallic Structures I and II at the Construction Department and for the subject Bases of Construction Structures at the Architecture Department. In school year 2008/2009 I was entrusted to teach Metallic Structures III for Master studies.

## **RELATED EXPERIENCE**

In 2001-2002 by the request of socially-owned enterprises I conducted an expertise for the assessment of assets – the value of construction buildings – of the following enterprises:
